10.3389/fenrg.2021.717975

Interdisciplinarily educated graduate (M.Sc.) looking for a user experience research position in which I can apply my knowledge on communication and computer science, as well as my proven skills in qualitative and quantitative empirical research, to better understand the customers and help design for a marvelous user experience.

## Work Experience

### Research Associate

*Chair for Communication Science and the Human-Computer Interaction Center at RWTH Aachen University*

09/2020 – 08/2021

- Collaborated in two large and interdisciplinary European Commission's Horizon 2020 projects by studying the general public's social acceptance of two Carbon Capture and Utilization products;
- Conducted mixed-method, multinational studies using both qualitative and quantitative methodologies;
- Was responsible for the planning, executing, analyzing, visualizing and reporting of the studies.

### Student Research Assistant

*Chair for Communication Science and the Human-Computer Interaction Center at RWTH Aachen University*

05/2017 – 08/2020

- Assisted in a large variety of research, thus gaining direct hands-on experience with the knowledge acquired during my studies;
- Tasks included: leading focus groups and conducting interviews; transcribing audio recordings; thematic analysis of transcriptions; literature research; designing and implementing surveys; analyzing survey data; data and concept visualization.

### Summer Intern

*Mediaan*

07/2018 – 10/2018

- Formulated a new communication concept for the company's website based on online research and a qualitative interview study with employees;
- Designed an Instagram strategy;
- Helped out with other communication and marketing related activities.

### Hostess & Children's Entertainment

*Eventief*

2014 – 2016

- A wide variety of tasks including children's entertainment, manning the reception and welcoming guests at both small and big events, and company promo jobs.

## Education

### M.Sc. Technical Communication Fundamentals of Computer Science

*RWTH Aachen University*

10/2018 – 06/2020

Two-year interdisciplinary Master's program combining communication science and computer science courses, i.a., usability, user diversity and technology acceptance; sociology of technology; web science; social computing; data communication and security; advanced topics of virtual reality.

### B.Sc. Technical Communication Fundamentals of Computer Science

*RWTH Aachen University*

10/2015 – 08/2018

Three-year interdisciplinary Bachelor's program combining communication science and computer science courses, i.a., empirical methods in linguistics and communication studies; public speaking and conversation skills; cognition, individual and environment; statistics; designing interactive systems; software engineering; computer engineering; programming and data structures.

## Bilingual University Preparatory Education

Charlemagne College in Landgraaf, the Netherlands

08/2009 – 08/2018

Six years of secondary education were completed cum laude and left me equipped with the necessary skills to attend a university, as well as a good mastery of the English language.

## Volunteering

### User Experience Designer

Open Disclosure San Jose, a Code for San Jose Project

09/2021 – present

- Conducted a heuristic evaluation of the existing website;
- Redesigned the website to include independent expenditures;
- Conceptualization, design, and recording of explanatory video on independent expenditures.

### Volunteer & Team Leader

Second Harvest of Silicon Valley

08/2021 – present

- Managing volunteers during various food-sorting activities by resolving problems and making sure everything runs safely and smoothly.

### Board Member Student Association

K.A.V. Alcuinus

10/2016 – 05/2019

- Fulfilled the roles of assessor, treasurer, and president.
- Helped Dutch students find their way in a foreign country.

## Technical Skills

### Quantitative Research

- survey planning/design
- quality control/sampling
- Qualtrics (Admin)
- statistical Analysis
- SPSS (Syntax)
- R / Python
- SQL

### Qualitative Research

- (semi)structured interviews
- focus groups
- transcription
- thematic analysis
- text analysis
- observation

### User Experience

- heuristic evaluation
- cognitive walkthrough
- A/B testing
- personas
- use cases
- wireframing
- Figma

### Other Research-Related

- mixed-methods research
- cross-cultural research
- (data) visualization

### Computer Science

- HTML5
- CSS
- Javascript
- C

## Soft Skills

- interdisciplinary collaboration
- storytelling
- (technical) writing
- goal setting
- independent
- time management
